

AQUA SPEED
SWIMMING ACCESSORIES

PRODUCT CATALOGUE 2018

INTRODUCTION:

Thank you for your interest in our offer.

Our company mission is to provide clients with the widest possible variety of swimming and snorkeling gear in a range of colours, designs, materials and prices. Our products are made by the world's best factories using modern designs and advanced technology, taking into account international trends. The high quality materials and fabrication used in AQUA-SPEED and AQUATIC products have made us one of the leading brands operating in the Polish swimming equipment market.

Now our main goal is to promote the image of our brands and their popularity among clients. This task is fulfilled by a team of highly qualified workers and sales representatives.

Our policy includes immediate delivery of orders and returns.

This catalogue has been divided into sections. Each of which is marked with different colour as shown below:

WOMENS SWIMWEAR

SWIMMING TRUNKS

ONE-PIECE GOGGLE

ADJUSTABLE GOGGLE

CAPS

POOL SHOES

ACCESSORIES

INFLATABLES ACCESSORIES

Each product has its name and code, for example:

ADRIA 001-XX, this name consist of:

ADRIA - -name of the product

001 - catalogue number of the product

XX - number or name of the colour, if the product comes in various colours.

Placing an order you need to specify name or catalogue number of the product as well as its colour number or name if it has such.

Our products are made of high quality, hypoallergic materials

Each product in the catalogue has been characterized. Additionally swimwear and goggles are described by some of the below features:

Pictures showing individual features of goggles:

Pictures showing individual features of fabrics used in swimwear:

Our swimwear is made of Italian fabrics by Carvico which specializes in the high quality sports fabrics. Below you will find descriptions of Carvico fabrics used in our swimwear.

NEWPORT is a next-generation fabric, designed to offer high technical performance. Thanks to the use of Xtra Life LYCRA®, Newport offers great resistance to chlorine, a perfect fit and lasting shape-retention.

While even exceeding the requirements of the innovative LYCRA® Sport program, Newport sustains muscles perfectly, decreasing their fatigue and improving the athlete's performance.

High protection against UV rays (UPF 50+), fast drying and perfect adherence to the body are just some of the characteristics that make Newport the perfect fabric for swimming and water sports.

DARWIN is comfortable and chlorine-proof, with total protection against UV rays (UPF 50+). Thanks to its unique composition, Darwin guarantees optimal breathability and is fast-drying. Elastic and durable with a perfect fit, Darwin is ideal for water sports in general (even the most extreme ones like surfing, kayaking, wakeboarding, etc.). It was created for the world of competitive water sports since it can satisfy the most demanding expectations.

REVOLUTIONAL ENERGY is a techno-fabric with a high shaping power, it is the heaviest fabric of the Revolutionary™ family. The muscular compression guaranteed by the extraordinary elasticity of the fabric, decreases the production of lactic acid, reduces muscular strain and improves athletic performance. All the prestigious certifications obtained with reference to its quality and performance state it is a very versatile fabric, suitable for several, different applications.

VITA Innovative Vita fabrics this swimwear is made of is an UV and ultrachlorine resistant, flat and very soft fabric that provides great muscle control, shape retention and coverage. It's great durability and resistance to fibre breakage gives it an extra long pool life. Vita is also highly resistant to degradation from sun creams and oils.

MALAGA is an opaque fabric that offers the perfect balance between light weight and elasticity.

Resistant to pilling and UV rays (UPF 50+), it is ideal for beachwear and fulfils the highest technical requirements for the sportswear sector.

Our sample packaging:

Feel invited to place orders through our website.

1 Piece Goggle

Liquid Silicone Rubber

Anti-fog Lens

Easy Clip Function

Wide View Goggle

These one piece goggles are made of extremely soft, non-toxic silicone made from LRS (Liquid Silicone Rubber) to provide exceptional durability and comfort. LRS is extremely long-lasting and damage resistant, retaining elasticity normally lost when exposed too high and low temperatures and UV rays. These LRS goggles offer a very secure (due to the low volume inside the goggle), high-comfort and leak-proof fit for all face shapes.

SONIC goggles provide a very secure (due to low volume of air inside the goggles), high comfort and leak-proof fit for all face shapes. The slightly curved, specially-prepared lenses made from damage-resistant Hard High Grade Polycarbonate have Anti Fog and UV protection, giving superb vision with a fashionable look. The lens shape is highly hydrodynamic, great for rough water, and the racy design is very close to the face helping to eliminate vibrations created by water flowing over the goggles. SONIC goggles feature an easy and quick-to-use Easy Clip buckle for regulating the double head strap, mounted directly to the silicone skirt for greater convenience and comfort. A great pair of goggles for swim training and fitness swimming.

Anti-fog Lens

UV Protection Lens

Modern two-piece swimming goggles for children, Mode from Aquaspeed feature separate lenses joined together with an exchangeable nose bridge (in 3 sizes). Such construction allows Mode to be adapted to different facial profiles, including those with a wider nose base. Soft silicone gasket provides excellent suction without too much pressure and a double silicone headstrap with regulation offers excellent and accurate fit. Mode features tinted lenses with Anti-fog and UV protection. Excellent for frequent outdoor and indoor use. Mode are available in three exciting colour variations.

A young man with short brown hair and blue eyes is sitting on the blue tiled edge of a swimming pool. He is shirtless and wearing black swim trunks with a bright green stripe on the side. He has a pair of clear swimming goggles resting on his left wrist. He is looking directly at the camera with a neutral expression. The background shows the blue water of the pool.

CAPS

BLOOM CAP

105-XX

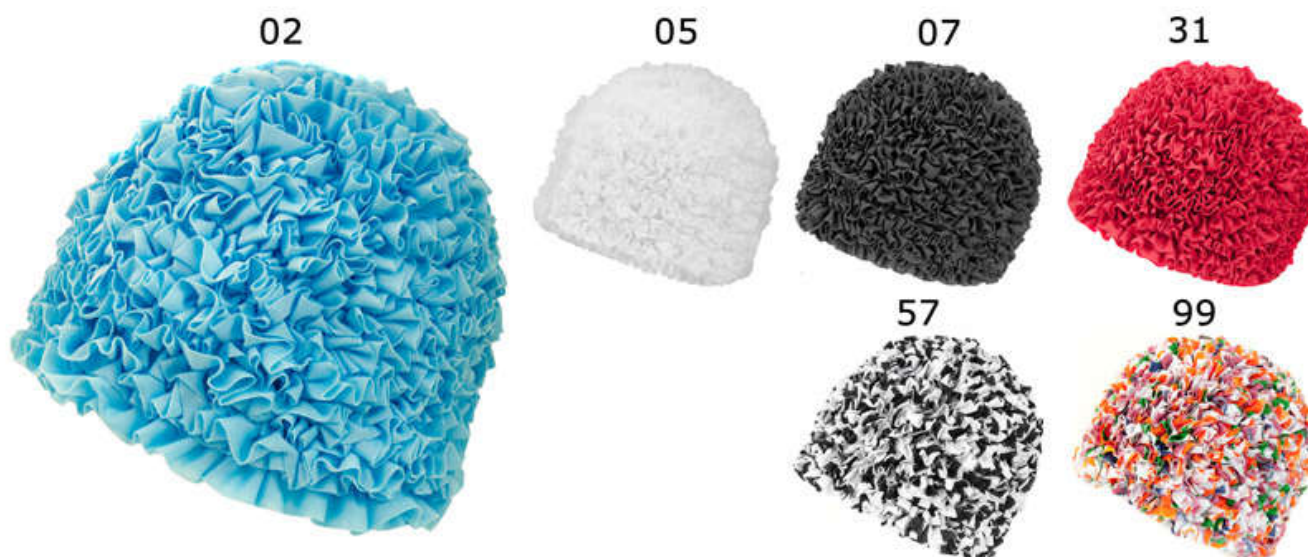

BLOOM rubber cap is a real eye-catcher. Its foam rubber seal provides good fit, yet the cap is roomy and comfortable – perfect for users with longer hair. The thick rubber material the cap is made of, as well as air-filled bubbles on the cap, mean that this piece of headgear is warmer than a standard cap, so it can be used in open waters and outdoor pools.

RUFFLE CAP

095-XX

This lovely Ruffle Cap from Aquaspeed will add style and fun to any water experience. This cap, covered in colourful frills, is made using a lightweight polyester fabric. Plastic lining and a broad elastic band on the bottom guarantee perfect fit and protection for the hair on the beach and in the pool. However, this cap does not provide watertight seal and does not guarantee to keep hair completely dry. This lovely cap, available in six stylish colour variations, is certain to give you feminine and glamorous look at the beach or pool. The Ruffle cap offers comfortable one size fit.

LADIES CAP

096-XX

This stylish Ladies Cap from Aquaspeed is a polyester fabric turban style, lightweight swim cap with a feminine look. Plastic lining and velcro closure at the back and broad rubber band and seal provide perfect fit and protection for the hair on the beach and in the pool, but is not guaranteed to keep hair completely dry. Ladies Cap comes in five lovely colour combinations making you look ladylike and elegant when enjoying water.

SHOWER CAP

094-XX

This Shower Cap from Aquaspeed is made of polyester fabric and with a foil inner cap and broad rubber band and seal. Made to keep hair tucked away while using the pool, it will also keep hair dry in the shower. While it's not waterproof, it is water resistant to help keep hair dry. This cap, available in five lovely colours, will give you feminine, elegant look while you enjoy a leisurely swim. It's easy to put on and easy to take off, with a one size fit.

LADIES TURBAN

093-XX

This turban style cap from Aquaspeed is made of towel like material (Terry cotton) consisting of cotton and polyester. Soft and cosy, it will protect your hair in the sauna, by the pool side or on the beach. Due to material used it is not meant to keep hair dry in the pool and it is not recommended for use in the water.

It's easy on and easy off, with one size fit.

POLYESTER CAP

091-XX

This Polyester swim cap from Aquaspeed is porous and lightweight – ideal to keep hair out of the way. Thanks to the used fabrics it is soft and comfortable and can even be used under latex or silicone caps to prevent the hair being pulled. This piece of headgear is a particularly good choice for swimmers with long hair.

PROFI 090-XX

PU(poliurethane)-coated swim cap from Aquastpped for Adults, PROFI is made from high-quality shaped Lycra, with a PU coating on the outer surface which makes it water repellent and durable. PROFI is comfortable. Thanks to the Lycra layer on the inside, PROFI does not pull on the hair, is especially easy to put on and take off and is lightweight and tear-resistant.

EAR CAP 128-XX

EAR CAP is an excellent solution for swimmers that require maximum comfort while swimming. This stretchy cap, made from 100% highest-quality silicone features special pockets for the ears, thanks to which the pressure on the ears is much smaller than when using a traditional cap. EAR CAP fits to the head comfortably and is available in several colors.

BOMBASTIC TIC-TAC 117-XX

Women's BOMBASTIC TIC-TAC swim cap from Aquaspeed is a perfect choice for ladies with long hair who are looking for a roomy and comfortable fit. Available in a variety of colours, Bombastic Tic-Tac is also a must-have for style-conscious swimmers. Thick rubber material the cap is made of, as well as air-filled bubbles on the cap mean that this piece of headgear is warmer than a standard cap, so it is perfect for use in open waters and outdoor pools.

3D CAP 092-XX

3D cap is an ultimate new racing cap from Aquaspeed. Made of 100% silicone, this seamless cap provides a wrinkle-free, secure fit that gives you a hydrodynamic shape and reduces friction and drag in water. Additionally, the 3D Cap is specially reinforced in its top part to guarantee excellent fit and increased durability. Perfect choice for performance swimmers.

SOFT LATEX 122-XX

This Super Soft Latex Cap from Aquaspeed is a good choice for adult and junior swimmers who are looking for an alternative to silicone caps. Available in a variety of colours, including bright fluorescent colours, this cap is made from biodegradable latex. This cap is lightweight, soft, comfortable and easy to wear.

MONO 111-XX

100%-silicone swim cap from Aquaspeed, designed to provide perfect fit, protection and performance at the pool. Made from top quality "super-stretch" silicone, MONO is comfortable, super stretchy and durable. Thanks to its elasticity, it is very easy to put on and take off and will fit you perfectly. MONO is available in a wide variety of lively colours.

FLASH

089-XX

Characterised by its unique style, this PU(poliurethane)-coated swim cap from Aquastpped for Adults, FLASH is made from high-quality shaped Lycra, with a PU coating on the outer surface which makes it water repellent and durable. FLASH is comfortable. Thanks to the Lycra layer on the inside, FLASH does not pull on the hair, is especially easy to put on and take off and is lightweight and tear-resistant.

NEO SOCKS

177-XX

Size: 20/21,22/23,24/25,26/27,28/29

Those lightweight and comfortable socks are made of soft and elastic material in the upper part and thicker neoprene for protection on the heels, toes and outsoles with non-slip surface underneath. Neo Socks are a great option for kids too small to wear normal pool footwear.

NEOPREN GLOVES 174

Size: S,M,L,XL

These aquafit gloves create water resistance making it hard for you to move your arms through water, building up the strength in your upper body muscles. The water resistance generated by the swim gloves is smaller than in case of solid hand paddles. Therefore, they are perfect for both swim training and aqua aerobics exercise.

EARBAND

Senior 179-XX

Junior 178-XX

- Keeps hair out of the face when swimming
- Helps keep earplugs in place
- Helps keep water out of the ears
- Length: 50-55cm
- Adjustable with Velcro at the back for easy fit
- Made of 2mm Neoprene

SET FISH

088-XX

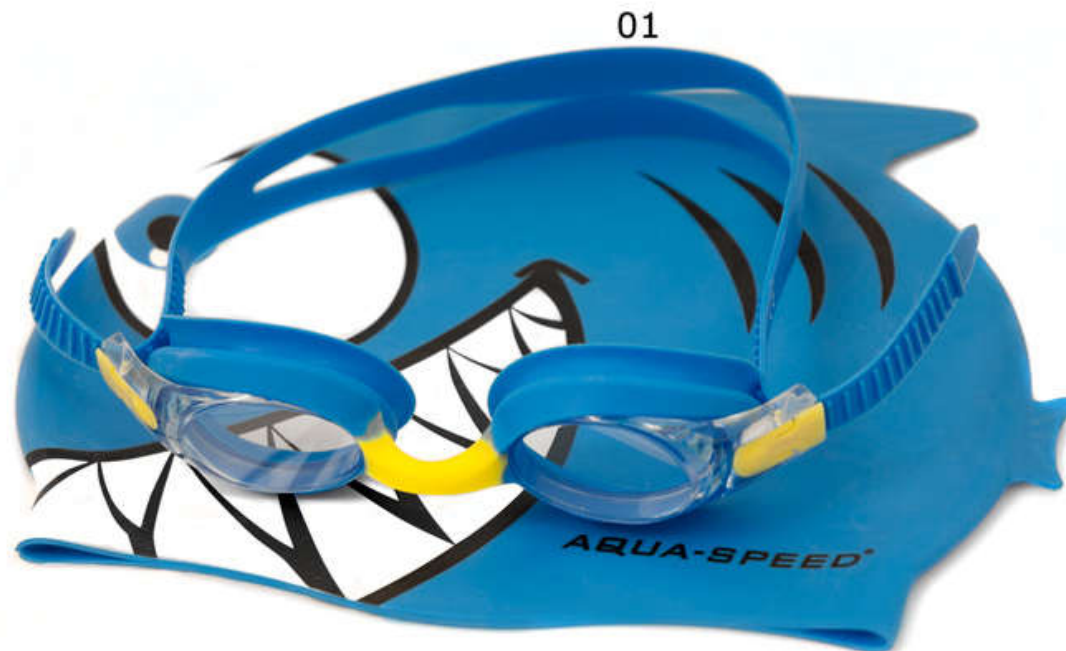

This fun cap and goggles set will be a perfect surprise for any pool loving kid. Soft silicone character cap combined with colourful silicone goggles will make any water experience much more fun.

Character cap:

This kids' fun 100%-silicone swim cap from Aquaspeed has a funky shark or fish design in 3D with fin and fishtail and will protect your child's hair. A great fun item that will enhance children's fun time in the pool. This cap is made of very stretchy material, making it very easy to put on and take off.

Goggles:

Unibody swimming goggles for children, these goggles feature separate lenses joined together with a flexible nose bridge. Such construction allows those goggles to be adapted to different facial profiles, including those with a wider nose base. Soft silicone gasket provides excellent suction without too much preassure and a double silicone headstrap with Easy Clip regulation system offers excellent and accurate fit. These goggles feature lenses with Anti-fog and UV protection. Excellent for frequent outdoor and indoor use.

MESH BACK PACK 176-XX

This Mesh Backpack from Aqua Speed is made of high grade nylon combined with nylon mesh for water drainage and durability. It features drawstring closure and adjustable shoulder straps for comfortable carrying. It comes in lovely bright colours and is a great piece of kit for carrying your swimming equipment to the pool.

Adjustable strap
Silicone skirt
Ultra-Dry system
Compact construction

M-11

L/XL-07

AQUA SPEED
SWIMMING ACCESSORIES

PRISM has been designed to allow users to admire the underwater world from the surface or from small depths. Its construction makes it ideal for those who consider conventional mask & snorkel set too uncomfortable or problematic to use. Available in two sizes, PRISM features a soft skirt and a adjustable silicone strap making it very easy to put on, take off and fit to most face sizes and shapes. PRISM also features a snorkel equipped with an Ultra-Dry top and an extremely efficient air circulation solution which not only makes breathing easy but also prevents fog from gathering inside the mask, guaranteeing clear vision. The user of PRISM is able to enjoy views of the underwater world in comfort unachievable for conventional mask and snorkel set.

PRISM full-face mask is available in two sizes, making it easier to fit the size and shape of the face of the user. Two different colour variations allow the users to choose the model that best matches their style.

Each PRISM mask is packed in a practical and durable pouch, which comes in handy for transportation and storage purposes. PRISM full-face mask is intended to be used for snorkelling on or very near the surface of the water. When descending to larger depths, it is necessary to equalise the pressure in the ears, which is impossible in a full-face mask due to the lack of access to the nose.

SPECTRA 258

Two sizes (S/M, L/XL) and three colours
Convenient packaging
Universal camera mount
Wide field of vision
Durable visor
Internal air circulation valve
Bottom purge valve
Adjustable strap
Silicone skirt
Ultra-Dry system

SPECTRA has been designed to allow users to admire the underwater world from the surface or from small depths. Its construction makes it ideal for those who consider conventional mask & snorkel set too uncomfortable or problematic to use. Available in two sizes, SPECTRA features a soft skirt and an elastic adjustable strap making it very easy to put on, take off and fit to most face sizes and shapes. SPECTRA also features a snorkel equipped with an Ultra-Dry top and an extremely efficient air circulation solution which not only makes breathing easy but also prevents fog from gathering inside the mask, guaranteeing clear vision. The user of SPECTRE is able to enjoy unparalleled views of the underwater world and thanks to the camera mount, can also make them last.

OPTIC PRO is a professional diving mask with available with optic lenses that offer wide and clear field of vision. Available correction ranges from -1 to -8 and +1,75 to +2,75 diopters. Each lens can be of a different prescription. OPTIC PRO features a stylish double-colored frame and a wide head strap providing superb stability. The gasket of the mask OPTIC features a double seal which makes it almost completely leak proof and allows any water that does seep in to be blown out of the mask even under water.

OPTIC'S gasket and strap are made of soft, elastic, non-toxic and damage resistant translucent Liquid Silicone Rubber (LSR). This material prolongs the life of the mask, increasing its durability and maximising comfort. LSR is highly resistant to UV rays and changing temperatures thanks to which it does not lose elasticity over time.

With this snorkel one can swim with perfect stability at any speed using chosen style. COMET JUNIOR can be worn with swim caps and goggles. It has a bottom purge valve to empty water from the snorkel, silicone mouthpiece and adjustable head bracket. COMET JUNIOR'S main chamber is made from a rigid material for the snorkel to always offer optimal properties during swimming. Additionally, the wide head strap is made from silicone to guarantee comfort and stability during swim training.

AQUA SPEED
SWIMMING ACCESSORIES

FINS

INOX 553

Size: 36/37,38/39,40/41,42/43,44/45,46/47

These modern, comfortable elastic, full foot-pocket fins are designed for snorkeling and easy recreational dives.

They are very easy to put on and take off and fit bare feet perfectly.

The fins have rubber reinforcements on the sides, which increase their lifetime and enhance stability.

Openings, which decrease the load on the fin blade.

A specially formed centre of the fin creates a tunnel, which directs the flow of water to the back, increasing the thrust, swimming speed and decreasing legs fatigue.

AQUA-SPEED
SWIMMING ACCESSORIES

FINS

SWIFT 707-XX

Size: 38/41 kol. 11,18

42/45 kol. 11,18,26

SWIFT Fins are open heeled fins designed with ultimate comfort, efficiency and performance in mind. The Swift fin has a specially shaped middle that directs water off the top of the blade without allowing water to spill from the sides of the blade for uncompromising efficiency and power and minimal foot fatigue. Thanks to their innovative built the swimmer gets more power and speed from each kick resulting in less fatigue. Ideal for recreational diving and snorkeling. Regulated and comfortable open foot pocket perfectly fits bare foot or neoprene aqua shoe and make Swift fins really easy to put on and take off. Rubberized side ribs and use of durable materials improve elasticity, and maximize resistance to cuts and abrasions.

HYDRO 530-XX

Size: 40/41,42/43,44/45,46/47

Superchannel HYDRO fins are long snorkeling fins with soft full foot pockets and flexible channel-style blades.

These excellent fins use a combination of rigid and soft materials which allow the blade to flex, creating a U shaped central channel that directs the flow of water down the blade, improving propulsion and efficiency. The blades also feature two traditional lateral channels to reduce leg fatigue. The blade is set at an optimal 20 degrees to maximise thrust. Strong side reinforcements molded directly into the foot pockets help control the flexibility of the blade, adding spring and reducing energy-wasting vibrations.

The fin blade elastomer is precisely molded into the foot pocket to increase performance and efficiency, and help reduce muscle fatigue after prolonged use.

The full foot pocket provides comfort and secure fit. A grip tab on the back of each foot pocket makes it easier to put on and take off the fin.

AQUA-SPEED
SWIMMING ACCESSORIES

SHORT TRAINING FINS

137-XX

Size: 31/32,33/34,35/36,37/38,39/40
41/42,43/44,45/46,47/48

Short training fins made of soft and very flexible silicone material. These fins increase effectiveness of leg movements giving the swimmer more force while increasing the physical effort at the same time.

02

03

07

11

26

38

MARE 735-XX

Size: 36/37,38,39,40/41,42/43,44/45

MARE fins are relatively rigid, full foot fins designed with ultimate comfort, efficiency and performance in mind. The Mare fin has rubber panels on the sides that create a tunnel that directs water off the top of the blade without allowing water to spill from the sides of the blade for uncompromising efficiency and power. Thanks to their innovative design there the swimmer gets more power and speed from the kick resulting in less fatigue when snorkeling or diving. The rubber reinforcements on the side and on the fin's blade make it more durable and protect it from damage.

11

18

WOMBAT (528-531)-XX

Size: 27/31,32/37,38/41,42/45

These great snorkeling fins have a compact length which is great for traveling to reduce bulk and weight. Thanks to its smaller than usual blade size this fin is perfect for snorkeling, easy recreational diving and pool use. The construction is stable thanks to the Wombat fin's vented blade which channels water and provides excellent snap improving finning performance when snorkeling. Soft, flexible, easy to strap and adjust open-foot pocket for great comfort can be used on bare foot or with neoprene aqua shoe. Adjustable foot strap to fine tune fit and allow fins to fit over a large range of foot sizes. Made of modern, durable and long lasting materials.

LAGUNA (726-733)-XX AQUATIC®

Size: 28/30,30/32,33/35,36/37
38/39,40/41,42/43,44/45

The LAGUNA is a full foot fin that is really lightweight and comfortable and suitable for all divers. Thanks to smaller than usual blade size this fin is perfect for snorkeling, easy recreational diving and pool use. The construction of Laguna is stable thanks to ribbed, vented blade which makes the fin efficient and powerful. Made of modern, durable and long lasting materials with comfortable full foot pocket.

BOUNTY 725-XX

Size: 27-31,32-37

These great snorkeling fins are compact in length, which makes them great for traveling, thanks to reduced bulk and weight. Due to smaller than usual blade size this fin is perfect for snorkeling, easy recreational diving and pool use. The construction of Bounty fin is stable thanks to vented blade which channels water and provides excellent performance when snorkeling. Bounty are soft, flexible, easy to strap and feature adjust open-foot pocket for great comfort (can be used on bare feet or with neoprene shoes). Adjustable foot strap can be used to fine tune the fit and to allow fins to fit over a large range of feet sizes. Made from modern, durable and long lasting materials.

ACTION 521-XX

Size: 36/37,38,39,40/41,42/43,44/45

The new Action fin from Aquaspeed is a blue and black short thaining fin with ergonomic closed heel and open toe foot pocket with pull tab at the heel. Specially constructed rigid blade creates water resistance to help you build up your leg and lower body strenght. Anti-slip rubber pads on the bottom of the fin provide grip on wet areas around the pool and rigid sole stops you from getting muscle cramps in your feet. These fins have been designed specifically for pool use and swim training. Action fins are a great choice both for fitness swimmers and serious performance swimmwers. Thanks to Action training fins you will: Increase your swimming speed thanks to propulsion and decreased muscsl fatigue. Improve your body position in water thanks to buoyancy the fin provides to keep your body higher in water. Improve the strenght and flexibility of your legs. The incresed force exerted on your legs due to the greater resistance caused by the Action fins, will help you improve the flexibility of the joints in your legs, as well as the strenght in their muscles.

AQUA-SPEED PREMIUM ARMBANDS 764-XX

These premium swim armbands from Aquaspeed are made from premium heavy gauge, durable PVC material combined with polyester fabric lining on the inner side which provides exceptional comfort. Two air chambers provide good bouyancy. Bright colours means parents will not loose sight of their child easily. These premium armbands will give children confidence in water while they are learning to swim. Kids will love the design and comfort of these pool aids.

IMPORTANT INFORMATION

Available in two colours and two sizes:

Up to 3 years (18 kg max)

Between 3 and 6 years (18 to 30 kg max)
